

**From: The City of Pasadena Public Health Department**

**Date: March 11, 2020**

As a precautionary measure, the Madison Jobe Senior Center will be closed until further notice as we monitor continuous developments regarding COVID-19 (Coronavirus) in Harris County.

There have NOT been any presumptive or positive cases of COVID-19 in Pasadena. Mayor Wagner, the City of Pasadena Health Department and Pasadena Office of Emergency Management continue to communicate daily with the CDC and local health officials.

Our senior community is precious to Pasadena, and given the high population of seniors diagnosed with COVID-19 around the world, we are taking every precaution to protect this population from possible exposure. Thank you for your understanding and patience during this time.
